

Amendments to the Claims

1. (Canceled)

2. (Currently Amended) ~~The cosmetics case of claim 1,~~

A cosmetics case for storing liquid cosmetics, comprising:

an upper movable part and a case body, the upper movable part coupled to a cap at top portion thereof while the case body is provided with a plug at a bottom portion of the case body,

wherein the case has a discharging tube covered with a wetting part and a piston screw-coupled to a screw rod, both being secured to the upper movable part and inside of the case body; an inner hole formed on top end of the screw rod and fitted with a spring and a reversing ball; and a hollow on bottom portion of the inner hole so that the liquid cosmetics in the case body flows to the wetting part through the discharging tube; and

wherein the discharging tube has a bottom end and further comprising a flange arranged outside the bottom end of the discharging tube, the flange having D-cut sides.

3. (Previously Presented) The cosmetics case of claim 2, wherein the flange has an inner fixation side.
